Press Release

FOR IMMEDIATE RELEASE

Local Firm Awarded building commissioning contract to provide services for the Ohio State University North Residential District Transformation project.

DENVER, CO – Engineering Economics, Inc. (EEI), a national engineering consulting firm headquartered in Golden, CO has been awarded a commissioning contract from The Ohio State University to ensure that the new buildings in their North Residential campus operate initially as the owner intended, and that building staff are prepared to operate and maintain its systems and equipment. This is an intensive quality assurance process that begins during design and continues through construction, occupancy, and operations.

The Ohio State University is preparing to transform the north residential community through the addition of 3,200 beds of new student housing, recreation and dining. This will create a new, vibrant neighborhood of over 6,000 student residents. This project will be registered with USGBC; the goal is to meet LEED Silver certification. The buildings will be commissioned to satisfy the requirements of Fundamental Commissioning and possibly Enhanced Commissioning. The University is committed to commissioning these facilities to ensure that all systems are well designed, complete and functioning properly upon occupancy and through all seasons, and that staff has adequate system documentation and training.

EEI is a national engineering consulting firm, specializing in energy management, energy conservation, building commissioning, retro-commissioning, facility assessments and LEED services. EEI is an Energy Star Partner and currently has 73 employees in 14 offices strategically located throughout the United States to better serve our clients. The firm is pleased to be a service partner to Fortune 500 and nationally recognized organizations such as Pfizer, Boeing, Microsoft, Verizon and numerous university and hospital systems across the United States.

More information on EEI and its projects can be found on the firm's website at www.eeiengineers.com.
